Education

Ph.D. Ecology, Swedish University of Agricultural Sciences. 2016–2020
Temperature- and body size scaling: effects on individuals, populations and food webs.

MRes. Applied Marine and Fisheries Ecology (Distinction), University of Aberdeen. 2014–2015
Predicting spatial distribution of fish stocks by updating informative survey-based priors with commercial data in a Bayesian framework

BSc. Biology, University of Gothenburg 2011–2014

Professional experience

Post-doctoral researcher 2020–2022
Swedish University of Agricultural Sciences, Institute of Marine Research

Publications

[*Preprints*]

Lindmark, M., Anderson, S. C., Gogina, M., and Casini, M. 2022. Evaluating drivers of spatiotemporal individual condition of a bottom-associated marine fish. *BioRxiv.* https://doi.org/10.1101/2022.04.19.488709

Lindmark, M., Karlsson, M., and Gårdmark, A. 2022. Higher mortality rates leave heated ecosystem with similar size-structure despite larger, younger, and faster growing fish. *BioRxiv.* https://doi.org/10.1101/2022.04.13.488128

[*Publications*]

7. Audzijonyte, A., Jakubavičiūtė, E., **Lindmark, M.**, and Richards, S.A. 2022. Mechanistic temperature-size rule explanation should reconcile physiological and mortality responses to temperature. *Biological Bulletin*, early view. https://doi.org/10.1086/722027

6. **Lindmark, M.**, Audzijonyte, A., Blanchard, J. L. and Gårdmark, A. 2022. Temperature impacts on fish physiology and resource abundance lead to faster growth but smaller fish sizes and yields under warming. *Global Change Biology*, 28(21), 6239–6253, https://doi.org/10.1111/gcb.16341

5. **Lindmark, M.**, Ohlberger, J., and Gårdmark, A. 2022. Optimum growth temperature declines with body size within fish species. *Global Change Biology*, 28(7), pp. 2259–2271, https://doi.org/10.1111/gcb.16067

4. Thunell, V., **Lindmark, M.**, Huss, M., and Gårdmark, A. 2021. Effects of warming on intraguild predator communities with ontogenetic diet-shifts. *The American Naturalist*. 196(6). 706–718, https://doi.org/10.1086/716927

3. Huss, M., **Lindmark, M.**, Jacobson, P., van Dorst, R., Gårdmark, A. 2019. Experimental evidence of gradual size-dependent shifts in body size and growth of fish in response to warming. *Global Change Biology*, 25(7), pp. 2285–2295, https://doi.org/10.1111/gcb.14637

2. **Lindmark, M.**, Ohlberger, J., Huss, M. and Gårdmark, A. 2019. Size-based ecological interactions determine effects of warming on food web stability. *Ecology Letters*, 22(5), pp. 778–786, https://doi.org/10.1111/ele.13235

1. **Lindmark, M.**, Huss, M., Ohlberger, J. and Gårdmark, A. 2018. Temperature-dependent body size effects determine population responses to climate warming. *Ecology letters*, 21(2), pp. 181–189, https://doi.org/10.1111/ele.12880

Reports

Havs- och vattenmyndigheten 2019. Fisk- och skaldjursbestånd i hav och sötvatten 2018. Resursöversikt. Havs- och vattenmyndighetens rapport 2019:4. Göteborg, 305 s.

Havs- och vattenmyndigheten 2018. Fisk- och skaldjursbestånd i hav och sötvatten 2017. Resursöversikt. Göteborg, 273 s.

Havs- och vattenmyndigheten 2016. Fisk- och skaldjursbestånd i hav och sötvatten 2016. Resursöversikt

Awards

Lindsay Laird Prize 2015
In recognition of all-round performance in the Applied Marine and Fisheries Ecology program throughout the year. Awarded jointly with another student

Fishmonger's Award, Scholarship recipient 2014
Full fees payment (£3400) awarded to 1 MRes/MSc student on academic merit by the Fishmonger's Company

Stipend from Gothenburg Biological Society 2014
For well accomplished bachelor's thesis: By-catch in pelagic fisheries: A study on by-catch in Swedish herring fisheries on the west coast in the winter of 2013/2014

Stiftelsen Hvitfeldtska gymnasiets samfond 2010
Stipend awarded for academic achievement (top 10% of science students in class)

Grants

Sven och Dagmar Saléns stiftelse (Travel grant) (5 616 SEK) 2019

Knut and Alice Wallenbergs foundation (Travel grant) (24 000 SEK) 2018

SLU funds for internationalization of graduate education (Travel grant) (28 000 SEK) 2016

Invited presentations

Gulf of Maine Research Institute May Seminar (GMRI) (video) May 2021
Understanding the effects of climate warming on food webs via individual-level physiology

Conferences

ICES ASC (Remote talk) 2022
Higher mortality rates leave heated ecosystem with similar size structure despite larger, younger, and faster growing fish

ICES/PICES Early Career Scientist Conference (Talk) 2022
Evaluating drivers of spatiotemporal changes in the condition of Eastern Baltic cod

Swedish Oikos Meeting, Online (Talk) 2021
Evaluating drivers of spatiotemporal changes in the condition of Eastern Baltic cod

Baltic Sea Science Congress, Stockholm (Talk) 2019
Warming alters the effect of fishing on the size spectra of an exploited temperate food web

Society for Experimental Biology, Seville (Talk) 2019
In Satellite: Is global warming causing animals to shrink? evidence, mechanisms and models
Physiological constraints to growing large in warm waters?

Swedish Oikos Meeting, Uppsala (Talk) 2019
Physiological constraints to growing large in warm waters?

Models in Population Dynamics, Ecology, and Evolution, Leicester (Talk) 2018
Species interactions determine effects of warming on stability in a stage-structured food chain

Nordic Oikos Meeting, Trondheim (Talk) 2018
Species interactions determine effects of warming on stability in a stage-structured food chain

Swedish Oikos Meeting, Lund (Talk) 2017
Climate change and size-structured populations. Temperature dependent allometry and ontogenetic asymmetry shape warming responses of size structured populations

Research visits

University of Washington, School of Aquatic and Fishery Sciences Mar 2017-Jun 2017
Research visit and collaboration with Dr. Jan Ohlberger

University of Tasmania, Institute for Marine and Antarctic Studies Nov 2018-Dec 2018
Research visit and multispecies food web modelling workshop with Dr. Julia Blanchard

Working Groups

WGGRAFY Member 2020-present
Joint ICES/PICES Working Group on Impacts of Warming on Growth Rates and Fisheries Yields (WGGRAFY)

Reviewing

ICES Journal of Marine Science (6) · Oikos (2) · Nature Communications (2) · Ecology (1) · Scientific Reports (1) · Functional Ecology (1) · PLOS ONE (1) · Proceedings of the Royal Society B (1)

Teaching

All lab material written by me is available on this github repository:
https://github.com/maxlindmark/comp-labs-ecology

Sustainability perspectives on contemporary fisheries. Where have all the fishes gone? 2019
Teaching assistant. Lecture on climate impacts on global fisheries.

Ecology for fish management and conservation 2016-2019
Teaching assistant. Wrote R lab Population dynamics and harvesting, lecture on fish morphology, physiology, and energetics, supervising and grading student projects, exam questions and marking.

Principles in Fisheries Science 2018-2022
Teaching assistant. Wrote R lab Impacts of fishing in an ecological context. Lecture on ecological interactions.

Supervision

MSc students

Malin Karlsson, Swedish University of Agricultural Sciences 2019-2020
Main supervisor for project: *The effect of temperature on life history traits of perch (Perca fluviatilis) in a large scale natural climate change experiment and its implications for population age- and size structure?*

Mattias Grunander, Swedish University of Agricultural Sciences 2016
Co-supervisor for project: *Effects of global warming on Eurasian perch (Perca fluviatilis) in the Baltic Sea. - Does the growth response to increased temperatures differ along a latitudinal gradient?*

Workshops

Making academic websites using GitHub, Quarto and RStudio 2022
https://github.com/maxlindmark/quarto_website

Making graphics in R for popular report on status of fishes in Swedish 2019
https://github.com/maxlindmark/ROM

LunchR 2018
A department wide R course in data wrangling and plotting (4x1 hour). Solely initiated and organized together with student colleague Philip Jacobson. Material: https://github.com/maxlindmark/LunchR

Modelling population dynamics with MatCont 2018
Organized a session on numerical continuation analysis of a predator-prey model

Software

ggaqua 2022
https://github.com/maxlindmark/ggaqua An R-package with a simple theme for ggplot2, theme_aqua(), that is based on SLU Aqua report style

University Services

PhD Representative Department of Aquatic Resources, SLU 2019

Class representative Applied Marine and Fisheries Ecology 2014-2015
I represented students' opinions and views on the program in regular meetings with course- and program coordinators at the University of Aberdeen

Student Ambassador Applied Marine and Fisheries Ecology 2014-2015
I communicated with prospective students, mostly through social media

Outreach

Co-managing research group's Instagram account @fishinfoodwebs 2016-2020

SLU 40th Anniversary, Uppsala (Poster) 2017
Climate change and size-structured populations. Temperature dependent allometry and ontogenetic asymmetry shape warming responses of size structured populations

Science evenings (high school), östhammar municipality (Talk) 2017
Effects of warming on fishes

Gothenburg Biological Society 2014
Popular talk at the Gothenburg Museum of Natural History on bycatch in small scale pelagic fisheries on the west coast of Sweden

Swedish Society for Nature Conservation 2011-2014
I have given public talks (presenting on the topic of toxins in the Baltic herring in 2014) at local festivals (go: TO SEA and Västerhavsveckan)

Gothenburg Museum of Natural History 2011-2014
Arranged seminar (4*2 per year) with invited speakers, covering all things marine
